PW numbers

OPTION 1: Add to cap under Amendment #6 of Cobra's contract and Cobra will subcontract to Bird (cutting out USACE and PowerSecure). If this is the better option we need Commonwealth help to push the amendment through.

OPTION 2: FEMA direct Contract to Cobra and PowerSecure or Bird

Both of these will answer the call to the Governor if we can move fast on the amendment or contract. And it is a good outcome for the mission.

- **Emergency Work for Cobra (\$750M) – Transmission and Distribution** – PW00466 –Currently under revision in EMMIE. Will inform when arrive OLA.

- **Emergency Work for New Contractor (\$400M) – Distribution** –PW00473 –Currently under revision in EMMIE. Will inform when arrive OLA.

Good morning Asha,

Thank you for the updated draft.

Carlos, Can you provide the PW numbers or PW reference numbers that are associated with each of these?

- **Emergency Work for Cobra (\$750M) – Transmission and Distribution** – PW00466 –Currently under revision in EMMIE. Will inform when arrive OLA.
- **Emergency Work for New Contractor (\$400M) – Distribution** –PW00473 –Currently under revision in EMMIE. Will inform when arrive OLA.
- **Permanent Work for a Resilient Design for Vieques and Culebra (\$130M)** – PW in draft, not in EMMIE. Gathering information from the Applicant (PREPA)
- **Begin Permanent Work on the 230KV Loop (\$420M)** – PW not in EMMIE, currently gathering information from the Applicant (PREPA)

Would be good to include the PW numbers or PW reference numbers into the document so they can be tracked.

Thank you.

Subject: PREPA RFP Obligation

Good morning,

Here is the updated draft on the PREPA RFP obligations that we would like to expedite for awareness of the request coming their way. We have equipment sitting at the Port of JAX waiting to float, so getting this to obligation is important.

I am keenly aware that we are awaiting docs from PREPA, but I am working to shake that loose today.

Thanks,
AT
